The public comment period for the proposed permit will run from Jan. 20, 2009 through Feb. 18, 2009. During this time, anyone may submit written comments on the permit. Mail signed comments to Ling Li at the IDNR address shown above.

Written requests for a public hearing concerning the permit may also be submitted during the comment period. Any hearing request must state the person's interest in the subject matter, and the nature of the issues proposed to be raised at the hearing. IDNR will hold a public hearing upon finding, on the basis of requests, a significant degree of relevant public interest in a draft permit. Mail hearing requests to Ling Li at the IDNR address shown above.

IDNR will keep a record of the issues raised during the public participation process, and will prepare written responses to all comments received. The comments and responses will be compiled into a responsiveness summary document. After the close of the public comment period, IDNR will make a final decision on the permit application. The responsiveness summary and the final permit will be available to the public upon request.
